BMW R 1250 R

The new R 1250 R is designed for a more dynamic appearance. This is mainly due to the all-new Boxer engine – with a maximum torque of 143 Nm, the reworked engine delivers more power than ever before. The variable camshaft control BMW ShiftCam technology offers you optimum performance in every engine speed range. During relaxed cruising or a sporty tour, you experience the pure thrill of riding and the typical punch of the Boxer engine at all times.
